PHOENIX
Zdravotnícke zásobovanie, a.s.

+ TradeLink

TradeLink is the simplest, most efficient and transparent way to communicate and coordinate the delivery of goods from you to PHOENIX's warehouses.

Problem:

Missing transparency caused by unstructured information & queries from all directions.

PHOENIX Zdravotnícke zásobovanie, a.s. + TradeLink

Solution:

TradeLink automates the coordination with all sides and creates full transparency within one platform.

PHOENIX Zdravotnícke zásobovanie, a.s. + TradeLink

Benefits for the supplier when joining the TradeLink platform:

- Priority handling at the booked time
- Book a time window according to your needs
- Saving the carrier's time, reducing waiting times
- Elimination of email communication and record keeping outside the portal
- Simplified handling of the necessary documentation for goods
- A clear "all in one" tool for tracking and recording the status of incoming goods
- Detailed overview of the status of your delivery
- Availability of necessary documentation

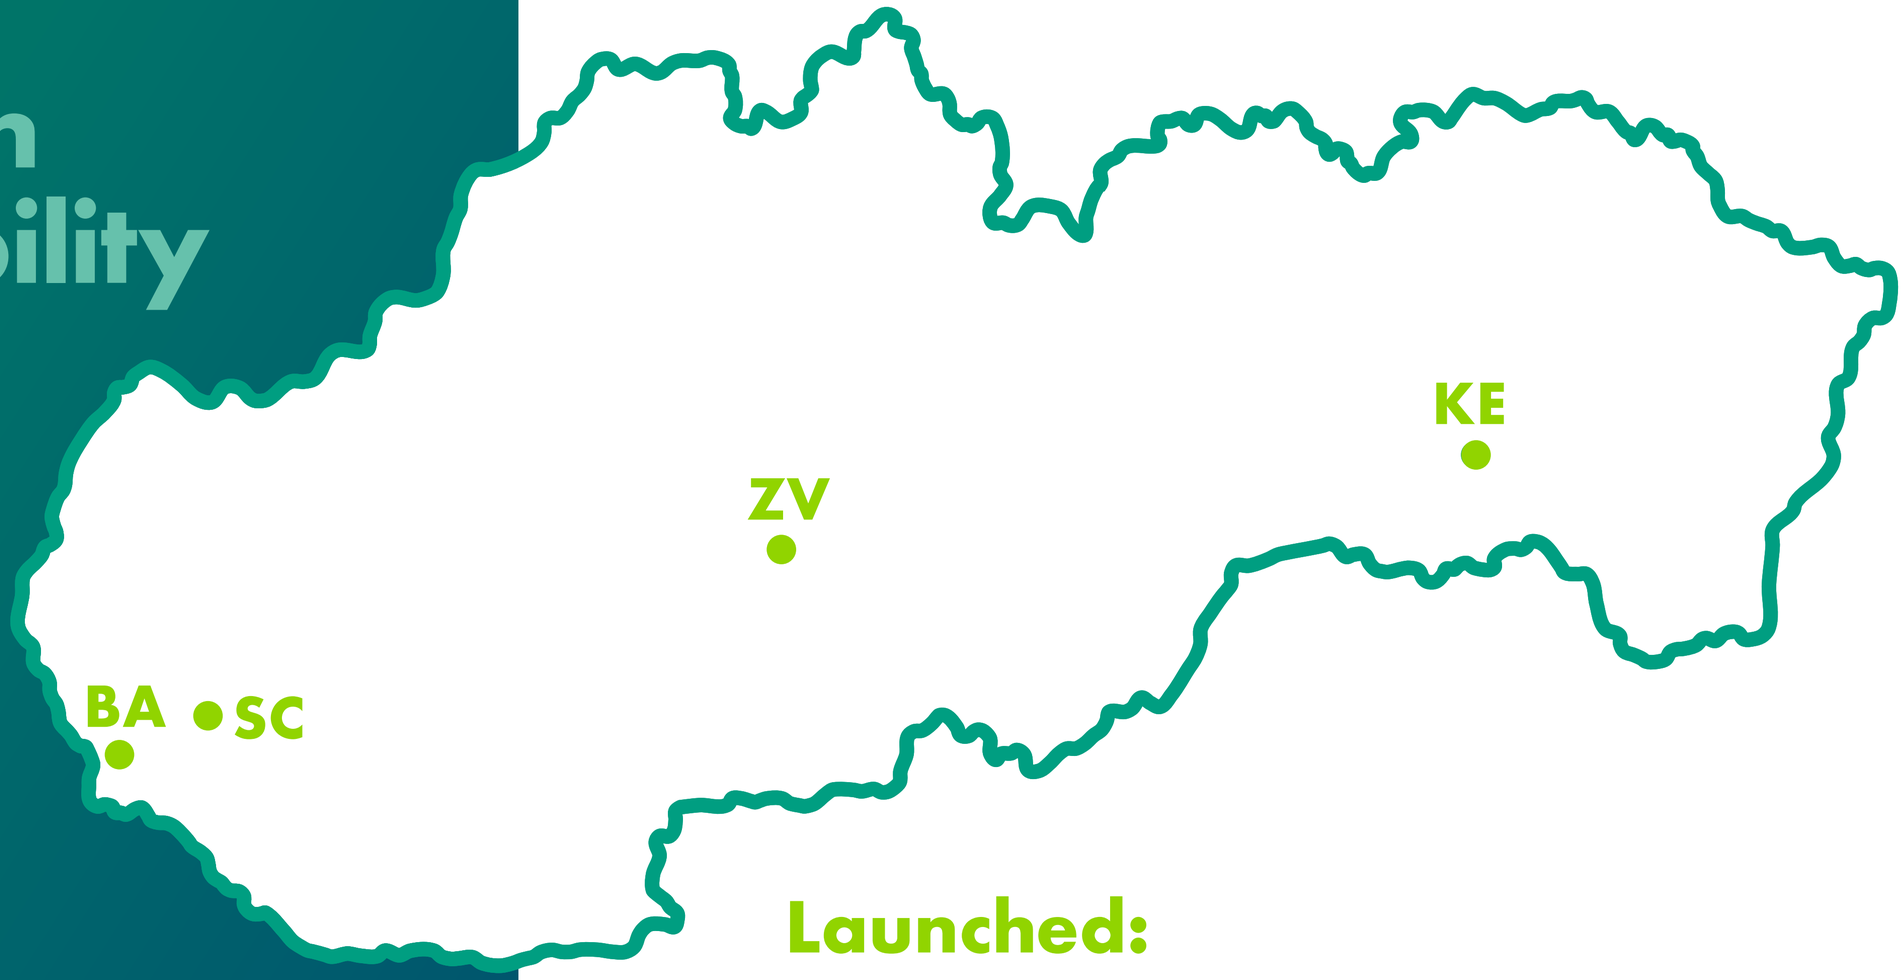

PHOENIX Zdravotnícke zásobovanie, a.s. + TradeLink

Possible complications affecting the unloading process:

- ! Possible postponement, change or extension of the unloading date due to priority handling of suppliers booked for a specific time
- ! Possible increase in the carrier's time spent unloading goods
- ! Problems with paper documentation
- ! Continuity in the existing multiple email communications

We strongly recommend joining the TRADELINK project, which will significantly streamline the process of unloading goods and keeping track of them.
